

AltoCryptStik

Access Without Compromise

Connect using a range of mobility options

Classified computer

Ethernet

Wi-Fi access point

Mobile phone

AltoCrypt Stik is a highly portable, easy to use, secure mobility solution. It enables wireless access to classified computer networks when and where required.

AltoCrypt Stik simplifies access to classified networks by integrating crypto, routing, and security appliances into one self-contained, compact USB device. This reduces the size, weight and power requirements for the user.

Utilising either enterprise Wi-Fi or the Internet, AltoCrypt Stik integrates with existing access gateways and cryptographic infrastructure. It is accredited and meets the requirements for handling the most classified data required by mobile users.

- Government approved encryption
- No briefcases or powerpacks
- Easy to use
- Discreet
- Simplified fleet and crypto management
- Multi-factor authentication

Technical Specifications

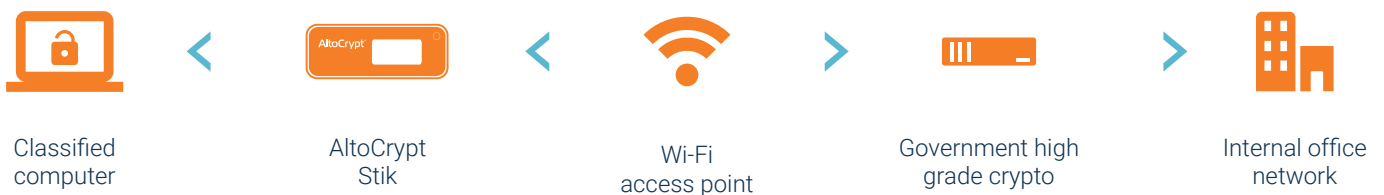

Weight	65g
Dimensions	(l) 81mm x (w) 31mm x (h) 16mm
Power	USB Interface
Routing Protocol Options	BGP
Operating System Options	Windows, Linux, Mac OS
Classified Computer Interface	Ethernet over USB
Management Interface	Any modern browser

ASD has developed the Australian Communications Security Instruction (ACSI) providing Defence and Australian Government users with the necessary advice to deploy the AltoCrypt Stik in a secure manner (ACSI 207B).

Use Case 1: Internal Office Mobility

AltoCrypt Stik delivers workforce mobility within classified office spaces. Our unique design enables organisations to employ standard Wi-Fi to allow staff to roam cable free, multi-task, collaborate with peers and have access to their data, when and where they need it. AltoCrypt Stik allows organisations to utilise a common infrastructure to support multiple classified networks.

Use Case 2: Remote Access

AltoCrypt Stik is the ideal solution to provide remote access to classified networks using public, home or personal hotspot Wi-Fi. AltoCrypt Stik's micro size means staff can enjoy mobility without the need for briefcases and power packs.
